Simplified Construction

Phone: 702-755-6404

Email: simplifiedconstruction@gmail.com

To whom it may concern,

On behalf of Numetric, Inc. I am happy to provide a letter of recommendation for Simplified Construction.

Simplified Construction was the general contractor for our office demo/build-out. Simplified Construction thoroughly fulfilled our needs and exceeded my expectations with their communication and ability to accommodate any last minute request. As the companies Office Manager, I've had the opportunity to work with numerous contractors from past projects and I am happy to say Simplified Construction is by far the most reliable, talented, and affordable company. Their attention to detail, communication, and ability to expedite our demo was extremely invaluable. I especially enjoyed working with Luis Mejia as he brought knowledgeable insight and clarity to this project, for Numetric.

I would highly recommend Simplified Construction for any project you may have, no job is to small for them and the craftsmanship you will receive will be nothing but exceptional.

Sincerely,

A handwritten signature in black ink, appearing to read "Lauren Rondou".

Lauren Rondou
Office Manager, Numetric
