RE: Simplified Construction

To whom it may concern:

As the engineer for multiple critical facility / data centers at Cox Communications, I was introduced to Brett Hales by my local electrical contractor. We needed a good general contractor that could perform a wide variety of projects for us. Brett and his team has fulfilled that need.

Over the course of a year, it has been a great pleasure working with Brett and his team of professionals. Brett is a hardworking, honest and most importantly very reliable professional in the industry. Always keeping us informed of project status and delivering a quality product every time. His attention to detail is second to none.

I highly recommend Simplified Construction and the services they offer to anyone that may have the opportunity to work with them. If I can provide further information, please feel free to reach out to me.

Respectfully,

A handwritten signature in black ink, appearing to read "Jeff Hopkins", with a long horizontal line extending to the right.
